INSTRUCTIONS

These instructions apply to all of our ITH placemats

1. Adhere two layers of stabilizer to the fabric with temporary adhesive. Hoop the fabric with the stabilizers.

TIP: Before making the napkin, thoroughly wash and iron the fabric so that it does not shrink after washing the finished product.

INSTRUCTIONS

We used the tear-away stabilizer Vlieseline Stickvlies or Stitch-N-Tear.

TIP: Use dense fabrics, such as linen with dense, even fibers, to ensure your product is of impeccable quality.

You can also use dense polyester, which has a texture similar to soft velour.

INSTRUCTIONS

We recommend embroidering the first color with silver thread to add a touch of glamour to the napkin. You can also choose a gold thread color.

You can also use Gutermann Sulky Holoshimmer Thread, which has a unique metallic-like shine but is gentle on the embroidery machine.

INSTRUCTIONS

3. Flip the hoop over and spray temporary adhesive on the stabilizer from the wrong side.

You need to place a piece of fabric UNDER the hoops, i.e., on the reverse side. This will be the back of the napkin.
